How To Start A Foreclosure Cleaning Business

Introduction

Congratulations! You are one of the few people that will have exclusive access to a little-known, yet very profitable home-based business niche that may earn you up to \$600 a day or more taking photos for national banks, mortgage companies and insurance institutions...

There are a lot of scams and scam artists that exist but there are also a lot of legitimate opportunities that exist as well and right now I'm going to introduce you to one of the genuine home-based businesses.

This special report will reveal a proven blueprint that puts you on the fast track earn over \$100,000 a year regardless of your credit, finances and education even in today's uncertain economy. Does that excite you?

Here's the best part...

It's not going to cost you hundreds or thousands of dollars to get started and you probably already possess all or most of the equipment that you need.

Okay, keep reading as this information is kind of time-sensitive because you don't want someone else to beat you to the punch and get a jump-start in your local area.

My name is Judy Palmer and I have partnered with Ms. Lisa Cameron of Indiana who owns a Property Management Company to reveal to you the opportunity of a lifetime. Lisa started a Property Management ten years ago after being downsized from the chaotic grind of the 9 to 5 "rat race".

First, because there are so many scam artists out there lurking and seeing to just walk away with your hard earned money, I want to give you Lisa's direct telephone number so if you have any questions or concerns, you can contact her with a simple phone call. You can reach her anytime between the hours of 9am to 5pm (Eastern Standard Time) at the toll free number you will get with your Training Manual and CD/DVDs. I would like to assure you the Lisa is a real person so please feel free to call at your leisure. (Note: If Lisa is unavailable, her assistant will happily assist)

The Perfect Home-Based Business

At your fingertips is the opportunity to take advantage of a virtually unknown industry that very few people even know exist. It's great for full or part-time income-it's your choice! I only ask that you seriously focus on this opportunity as you get excited about the thought of multiple checks being deposited into your account... week after week after week!

Some of the companies that require this much needed service will even "direct deposit" your money into your bank account so you don't even have to leave your house to deposit your money into your account.

How's that for convenience?

The Opportunity of A Lifetime?

This is a super opportunity because you can earn a lot of money within an industry that is not saturated. You can take advantage of a little-known industry that could change your life financially.

You just need a vehicle, telephone, computer and digital camera and a measuring tape. Anyone, including you, can be successful in this industry. It's so easy my nine-year-old son could do it but the only thing holding him back is that he's not old enough to drive yet!

You can get started right now! There is NO experience, NO license or certification required. Lisa's training manual shows you how to access hundreds of companies throughout the U.S. that desperately need independent contractors.

The manual also shows you where to list your name and coverage areas online instantly which informs companies that you're available to complete work orders. Remember, this is your business so you decide which clients you want to work for and what areas you would like to cover.

Are you ready to make financial change in your life or will this just be another "missed opportunity"?

Compare this business to the traditional 9-5 rat race of corporate America:

Cleaning Forclosures Biz

- NO education Requirements
- NO License Needed
- NO Earnings Cap
- Basic PC Skills
- Low Start-Up
- Be Your Own Boss

9-5 Rat Race

- Boss Looking Over Your Shoulder!

Now, you make the call. Where would you rather be? Slaving every day with a boss glaring over your shoulder or having the freedom to decide how much you work and earn? [Click Here](#) to download 256-page Training Manual and to have your CD, AUDIO & DVD rushed to you.

Here's food for thought- If you keep doing what you're doing, you will keep getting what you're getting... so if you're content with what you're getting right now, this opportunity is not for you.

If you want more out of life, I highly recommend that you jump on this opportunity. You're protected by a full SIXTY-day 100% money-back guarantee so there is no risk to you.

Who Requires This Service and Why?

According to RealtyTrac.com, there were 2,846,982 foreclosures across the country in 2008 and so far in 2009 the foreclosure rate is on track to be even higher. So, is there a market? Absolutely!

Banking, Mortgage and Insurance institutions nationwide have vested interests in homes, vehicles, commercial property, businesses, RVs, boats, stores, restaurants, or any entity requiring financing or insurance.

These companies must have updated and accurate information on the condition of their property and it's not cost effective for them to have "CONTRACTORS" in every town in the United States.

If someone's home in your local area goes into foreclosure, the mortgage company or bank must ensure that their vested interest in the property is protected, etc. Let's say that a homeowner suddenly decides to vacate the premises of a property and never notifies the financial institution (believe it or not, this actually happens a lot).

"This is truly amazing. I wasn't even aware of the easy ways to make money that are described in the manual. Everyone is talking about selling stuff and marketing but your training manuals tells how easy it is to make money without any of that. By simply using my camera and car, I have finally made it. My whole life has changed since I followed your step-by-step instructions. Now, I'm really happy! Thanks Lisa!" R. Davis, TX

What if someone breaks into the property or the pipes freeze in the dead of winter? Without independent contractors doing a foreclosure cleanout and winterization the Mortgage Company or bank would stand to lose a ton of money on the property they have a vested interest in. This is why they desperately need your assistance. The foreclosure rate in the U.S. is literally through the roof and it doesn't look like it will improve anytime in the near future.

Now this is where you come in!

These financial institutions sub out their work to independent reps and once trained; your services will be in high demand!

Due to the power of the internet, most financing, insurance, mortgages, equipment leases, etc. are now completed online or via 1-800 telephone numbers, the need for these instructions on a local basis has decreased dramatically.

Imagine being a representative for 100's of national companies that must have constantly updated information from your local area. Now think about the constant stream of cash flow into your bank account...

Here's Why It Works...

A citizen in your local metro area applies for a home loan online from a national mortgage company.

They default on the loan. The mortgage company requires that the property is secured via lock changes, boarding any broken windows, changing the locks and cleaning up the property.

It's simply not "cost effective" for the mortgage company to fly someone from their firm to your hometown for a task that may take up to 2 to 4 hours or less... Are YOU starting to see the potential here?

Thanks to the internet and companies that initiate new business via 1-800 numbers, there is already an extreme shortage of trained "field reps" nationwide... and the shortage is constantly growing!

*"Unlike most work at home jobs, Lisa delivers what she promises! I have completed 20 inspections in just my first week after signing on with a company she referred me to and I just keep getting more and more assignment requests daily. I've even had to turn some down because I have been offered so many. I am so thankful that I found your site. Just want you to know what a great service you offer. Keep up the good work!" **George S., Portland, ME***

The assignment requests are sent to you via email or telephone so there is no advertising or soliciting for business on your part. The exclusive information manual reveals which companies to contact to ensure a constant stream of profitable business for you. After all, you don't want to waste your time with companies that will not be profitable for you.

Think about this - there are actual people just like you that are getting paid \$400, \$650, \$950 and \$1000 each and every time they clean a foreclosure, change a lock, winterize a property or board a broken window. It only takes ½ hr to 4 hours, sometimes less to complete each assignment and some reps are doing 10 + assignments daily! The assignment fees add up quickly but the best part is you work at your own pace.

Here's another point to remember:

You are allowed to cover as many zip codes as you would like. It's your business and you can work as many assignments that you can handle in multiple zip codes. There are a lot of zip codes across the nation and I'm sure there are at least 10 or more right in your own backyard.

This opportunity offers you the benefit of spending more time with your family and the luxury of basically working from the comfort of your home. That means no irritating morning rush hour traffic and having to deal with the boss that drives you up the wall or the blooming idiots that are your co-workers.

I have only revealed to you one type of service that independent contractors perform on a daily basis for these companies. There are additional services that are desperately needed and you can earn even more money by selecting the services that you're willing to perform based on your availability, ability and desire.

This is bonus insider money-making information that you will not find anywhere else.

*"I can't believe it! I have finally paid for a work at home opportunity that really works. I'm done wasting my money on opportunities that are based on lies and deceit. Lisa, everything you suggested has worked and I'm actually getting checks every week." **Robert J., OH***

Lisa has created a simple, information packed manual that will show you step-by-step how to get started so that you can get a jump start on making money with the simple click of a camera button.

Frequently Asked Questions

Q: Do I need any special skills before I am allowed to accept assignments?

A: You will need to download work orders and upload or fax your work order completions. In some cases you will be allowed to submit your results via regular "snail mail".

Q: How do I get assignments once I have finished your training manual?

A: You will be provided with the names and the contact information for 100's of firms that have constant and growing need for trained field reps throughout the U.S. These firm's clients include major banking and insurance institutions worldwide. Once you have completed reviewing the manual, you will also learn the proper method to contact inform them and let them know that you're a trained contractor

Also, Lisa has built a strong and well known reputation in this industry. Because of that clients call her to get referrals nationwide. Guess what? When you complete the training we'll immediately start sending those referrals to you.

Q: Is there anything else that I will have to purchase besides your manual & DVD?

A: No. There are no "add-on" products. The training manual, audio, CD & DVD reveals everything you will need.

Q: How difficult is it to get started?

A: It's easy! After you review the manual, you will simply create an introduction letter that contains your contact information, the types of assignments that you're willing to accept and the areas that you're willing to service. You will then email or fax this info to companies that are provided in the manual. As you will discover, these companies always need new reps and will be more than happy to hear from you.

Q: How soon can I start making money?

A: After you initiate contact, it will take 7-14 days to be placed in their systems at that point you will begin receiving assignments. You will be paid via mail or direct deposit by the individual companies once your assignments are completed. Some clients pay once a week, biweekly and others monthly.

Q: What equipment will I need to get started?

A: You will need transportation, a phone, computer, measuring tape, and a digital camera (preferred) or a 35mm (disposables are ok-no Polaroid). You must be able to download your photos to your PC so that you can email them. If you use a 35mm camera, you must be able to scan the photos, or have them put on CD so that they can be emailed in a digital (.jpg) format.

There are some companies that will accept regular prints.

Q: Do I have to wear business attire for my assignments?

A: No. Most types of assignments require little or no contact with anyone therefore; blue jeans, sneakers and a polo/golf style shirt are perfectly acceptable.

Q: Am I limited to assignments in my hometown?

A: No. You can also service your surrounding counties, towns and even states. You're not limited as to where you can accept assignments as long as you can complete your assignments in a timely manner. You're normally given 3-5 business days to complete each assignment and companies will pay you "extra".

Q: What if I have questions after i purchase your program?

A: You will receive unlimited support via email, live chat, support tickets or telephone. Email is preferable and Lisa normally tries to answer questions within a few hours.

Q: How long does it take for me to receive my program?

A: You will receive a download link for your Training Manual instantly after your payment is made. The Training Manual is in a PDF format and PDF files require Adobe Acrobat Reader which is already installed on most computers. If you don't have it, [click here](#) for a free download.
